Installation contractors of Hong Kong Ltd (FSICA)

Date, Time and Venue

Date : 5, 7, 12 & 14 July 2011 (Tue & Thur)

Time : 7:00 pm – 9:30 pm

Venue : Function Room, 1/F HKPC Building, 78 Tat Chee Avenue, Kowloon Tong, Kowloon

Programme Highlight

The training course will introduce to young engineers the practical design of common fire services systems including automatic sprinkler system, street and fire hydrant systems and automatic fire alarm and detection system. Step-by-step design procedures will be demonstrated by case studies. Common design mistakes will be discussed. The relevant testing and commissioning procedures are also included. Advanced topics for experienced engineers on the design of long-throw sprinkler system, water mist fire protection system and gaseous fire suppression system will be demonstrated by case studies in this course. Their corresponding testing and commissioning procedures are also included. All lectures will be delivered by experienced consultants, contractors and specialists. Successful statutory submission is important to all building projects. We are delighted to have lectures delivered by the officers from Fire Services Department regarding the general building plan submission and the fire engineering report submission from fire safety perspective which is particularly important to fire engineers.
